How to share your folder with your professor

Click on Organize & Share Folders

Now click on beside the folder you want to share.

You will get a box asking if you want to share, click share.

Now you need to share that folder:

I found a better way than what I told you in class

Hover over the beside the folder you want to share

Then click on
Type in your professor’s email address and include your name to send the link.

Any questions?
